DESIGNING and PLANTING

This is the most important part of my business; I undertake the work personally and being well acquainted with the growth of Trees and Shrubs, and Herbaceous Plants, I plant them to grow to show off to the best effect.

All deciduous trees and shrubs planted by me that fail to grow within a year, will be replaced free of cost. I cannot be answerable for severe winters or any climate influences.

Coniferous evergreens I do not replace, a half price charge I may replace at.

SURVEYS

I prefer where there is an opportunity to make a Survey for a lay out of the ground. It is also very important to know something of the nature of the soil for planting, etc.

I AM SOLICITING YOUR PATRONAGE

to beautify your home, and if you will write to me or call me on the phone, I will make an appointment with you, as I am qualified for to do Landscape Gardening work as good as any.

Yours respectfully,

JAMES MacGREGOR
